

3 April 1969

NOTE FOR MR. MAURY:

Mention is made of possible release of the Director's prepared statement in discussion between Admiral Raborn and Chairman Fulbright (Pages 383 - 384) and by Senator Symington (Pages 471 - 472). No consideration was given during the hearing to release of the entire transcript. Chairman Fulbright stated at Page 384: "This whole record is executive and the Committee understands this... And not to be released so far as I am concerned in the foreseeable future at all."

As will be seen in the attached topical outline, the questions and answers which take up all but the first ten pages of the transcript (Pages 384 - 486) relate almost entirely to Agency operations and methods.
